

FIRES MENACED CITY OF HIBBING

Several Buildings in the Town
Are Burned Down.

WORK OF MONTENEGRIN BAND

Foreigners Who Had Been Ejected
From Their Homes for Non-Payment
of Rent Started the Fires—Nash-
wauk Saved From Destruction by
the Flames When the Wind Died
Down.

Duluth, Sept. 11.—Fire of incendiary
origin menaced Hibbing, Minn., sixty
miles north of Duluth, when several
buildings were burned. Forest fires
swept down upon Nashwauk, twenty-
two miles southwest of Hibbing, and
the flames were within half a mile of
the village when the wind died down
and the advance of the fire was
stopped. For forty-eight hours the
100 citizens of the Adriatic mine loca-
tion near Aurora, fifty miles north of
Duluth, have been fighting a forest
fire which has completely surrounded
the settlement. The location is in
danger of destruction if the wind does
not change or lessen in velocity.

The fire situation on the Mesaba
range was most serious near Hibbing,
where hundreds of men have been
fighting fires one mile west of that
town at the Mahoning mine location.
The fire of incendiary origin was
started by Montenegrins who had been
ejected from their homes for the non-
payment of rent. The Hibbing fire
department saved the French location,
where the destroyed houses were
located, after a hard fight.

If the wind had not died down it is
believed that the fire would have de-
stroyed the location which adjoins
Hibbing on the northeast.

Forest fires completely surround
the village of Foxboro, twelve miles
southwest of Duluth, in Douglas coun-
ty, Wis., and the citizens are battling
with the flames, which are within a
sixth of a mile of the town. Foxboro
has 200 inhabitants and the fate of
the settlement is in doubt.

Reports from Two Harbors, Minn.,
indicate that vast forest fires are
spreading throughout the northern
portions of Cook and Lake counties
and that large areas of standing tim-
ber have been destroyed.

A block of business buildings at
Washburn, Wis., were destroyed by
fire. Flames broke out in the Nelson
hotel and razed that structure, three
saloons, an ice house and two small
buildings. The damage is estimated
at \$100,000. Several firemen were
painfully burned. The town is in
darkness, as the wires leading from
the power house to the town were
burned.

SOLID WALL OF FLAME.

Stretches From Grand Marais, Minn.,
to the Canadian Line.

Fort William, Ont., Sept. 11.—A
solid wall of flames twenty-five miles
in length is said to stretch from Grand
Marais to Chicago bay on the interna-
tional boundary line. The Pigeon
River Lumber company's camp at
Chicago Bay is said to be destroyed
and settlers are said to be very an-
xious. The flames are devouring every-
thing in the Whitefish valley. There
is a bad fire at Silver Mountain and
Gunflint. Two Pigeon river lumber
camps on the international boundary
have been destroyed. The fire in the
Indian reserve is still burning, but
the Indians have it in check.

VICTIMS OF FOREST FIRES

Michigan Man and His Two Sons
Burned to Death.

Calumet, Mich., Sept. 11.—Forest
fires in the vicinity of Otter river,
this county, caused the death of Jacob
Hernesniemi and two sons. The forest
fires which have been raging in the
Otter river district several days
reached the Hernesniemi homestead.
With two sons, twelve and fourteen
years of age, he remained to fight the
fire, but it drove them back and be-
fore they could escape they were
hugged about by a wall of flame and
burned to death.

Some naturalists are of the opinion
that the whale was once a land animal
and that it was forced to take to wa-
ter as a means of protection.

of reduction in price when it was

reductions, Frank B. Kellogg, who is

LEGISLATURE ADJOURNS.

Unable to Elect a Successor to Sena-
tor Allison.

Des Moines, Ia., Sept. 11.—Beaten
by the revolvers who had locked the
legislature, Governor Cummins asked
his friends to cease pressing him as a
candidate for the short term for United
States senator and accept the terms
which the stand-patters offered. The
progressives were forced to submit.

The extra session of the legislature
therefore adjourned to reconvene Nov.
24 after the general election. It will
then elect the person to the senate re-
ceiving the largest vote at the primary
in November.

The joint convention met and the
roll call disclosed the fact that the
stand-patters were as firm as ever.
Cummins still lacking a dozen votes
of a majority. After the convention
dissolved a caucus of the supporters
of the governor was called and the
governor was asked to be present.

Governor Cummins read a statement
to the caucus in which he said:

"The deadlock which now exists has
become a matter of grave party con-
cern. I have hitherto yielded unhesi-
tatingly to the majority in order that
the party welfare might be promoted.
I now am willing to yield to the mi-
nority to secure party peace and har-
mony. Far above my ambition I put
Republican success, and Republican
success is now seriously menaced. I
want our party to win the campaign
now in progress, and no matter how
unjust the action of the minority
seems to be, I cannot allow my own
views and my own interests to stand
in the way of complete party victory."

The governor's counsels finally were
accepted and the peace agreement in-
dorsed by all but Senators Allen and
Turner and Representatives Marston,
Vanhouten and Weeks.

PLACED IN HANDS OF A RECEIVER

Fish and Oyster Firm in Fi-
nancial Difficulties.

Chicago, Sept. 11.—The fish and
oyster firm, A. Booth & Co., rumors
of whose financial difficulties have
been current in La Salle street for
several weeks, has been placed in
the hands of a receiver by Judge
Bethea in the federal district court.
The Linen Thread company of New
York and Alfred E. Booth of Bal-
timore were the complainants named in
the petition, and on their plea W. J.
Chalmers, president of the Commer-
cial National Safe Deposit company,
was appointed receiver. His bonds
were fixed at \$50,000 and he was
placed in charge of the firm's affairs
at once.

The petition asserts that the liabil-
ities of the company are \$5,500,000 and
places the assets at \$8,000,000. The
troubles of the company are alleged
to be due in a large measure to an
inadequacy of capital, coupled with
the financial depression of last fall.
The bill asserts that the company is
unable to meet its obligations. Coin-
cident with the receivership proceed-
ings an attachment for the funds of
the company was secured by an attor-
ney representing the Girard National
bank of Philadelphia on a claim for
\$35,000. This amount is alleged to
have been obtained from the bank by
means of fraudulent misrepresenta-
tions. It is a statement made by W. V.
Booth, president of the company, the
receivership is declared to have been
rendered necessary because instead
of mortgaging the property the company
has relied for funds upon the sale of
its short time commercial paper,
some of which it has been unable to
renew. "The management," he said,
"is confident that the embarrassment
will be but temporary."

The basis for the receivership was a
claim of \$7,683 alleged by the Linen
Thread company to be due upon a
note.

Judgment was obtained before
Judge Bethea in the United States
district court and a deputy marshal
who was sent to levy, reported that
he could not find sufficient property
to satisfy the claim. Thereupon the
thread company joined with Booth of
Baltimore in asking for a receiver.
Booth declared that he owned 7,464
shares of the preferred stock and
7,138 shares of the common stock of
the company. There are 35,000 shares
of preferred and 30,000 shares of the
common stock all told.

BRYAN ATTACKS JOSEPH CANNON

Says He Is the Favorite of Pre-
datory Corporations.

CLAIMS HE TOLD A FALSEHOOD

Nebraskan Declares That the Speaker
of the National House of Represen-
tatives Did Not Tell the Truth When
He Declared That the Democratic
Candidate Was a Millionaire.

Evansville, Ind., Sept. 11.—Heavy
personal onslaughts on Speaker Jo-
seph G. Cannon of the national house
of representatives were made by Wil-
liam J. Bryan in the course of his trav-
els through Illinois. The Democratic
candidate attacked Mr. Cannon from
all sides. He charged the speaker
with being the favorite of predatory
corporations, with having strangled
reform legislation, and with having
falsified the facts with regard to Mr.
Bryan's wealth.

Mr. Bryan bided his time before giv-
ing vent to his utterances until he had
reached Speaker Cannon's congres-
sional district, when a ten-minute
stay was made at Toledo, Ill. A great
crowd had assembled to hear him and
the Nebraskan immediately launched
into his philippic against the speaker.
Moving on from Toledo, Mr. Bryan re-
peated his remarks at Newton, Ill.

Not content with his statements at
these two places, the Democratic can-
didate for president later on, at Olney,
Ill., where he stayed for three hours,
openly accused the speaker of telling
a falsehood when the speaker fixed
Mr. Bryan's wealth at \$1,000,000. Mr.
Bryan referred to what he said were

JOSEPH G. CANNON

the many exaggerated statements in
regard to his earthly possessions, but
declared that Mr. Cannon's statement
of Wednesday before the Springfield
convention was the first attempt of a
man of political standing or respon-
sibility to estimate these possessions.

In great detail, Mr. Bryan gave fig-
ures showing how his money had been
acquired from the day he entered con-
gress until the present time. He de-
nied emphatically that he was worth
\$1,000,000 and fixed the amount of his
"earthly possessions" at \$150,000 as
the extreme limit. He had come by it
honestly, he said, through saving a
portion of his congressional salary,
and from receipts derived from his
lectures and writings. He demanded
that Speaker Cannon be as frank as
himself and tell the public whether
he had made any money through lec-
turing and writing, and to what extent
his money-making had been hampered
by strict attention to public duties.

Not since the campaign began has
Mr. Bryan spoken with such vehem-
ence, and it is said to be the first
time that a presidential candidate ever
went out of his way to attack a can-
didate for congress.

The entire day was spent in Illinois
and Indiana. Altogether, Mr. Bryan
made seven speeches, the places at
which stops were made being Mat-
toon, Toledo, Newton and Olney, Ill.,
and Brown's, Poseyville and Evans-
ville, Ind. The heat was almost un-
bearable, but the Democratic can-
didate seemed not to be affected by it.
Wherever he went, he was met by
large and enthusiastic crowds.

WRIGHT BREAKS WORLD'S RECORD

His Aeroplane Flies for More
Than an Hour.

Washington, Sept. 11.—Orville
Wright broke the world's record for
time and distance for a heavier-than-
air flying machine which he estab-
lished Wednesday. In a flight requir-
ing great skill on account of a ten-
mile wind, he circled around the drill
grounds at Fort Myer fifty-eight times
in 65 minutes and 52 seconds, exceed-
ing the time of Wednesday's record
flight by 3 minutes and 27 seconds.
The flight was witnessed by nearly
1,000 people.

The aeroplane rose from the ground
almost immediately after leaving the
single starting rail. It continued to
climb higher with each successive
round of the field, until it reached an
altitude of seventy-five feet. For the
first thirty rounds the machine flew
as smoothly as on its previous flights,
but from that time on it was seen to
pitch at the turns, as the breeze from
the west struck it. As the machine
moved from the northern end of the
field to the southern end, Mr. Wright
kept it several points in the wind.

Whenever the machine pitched, it
could be plainly seen from below that
it responded promptly to every move
of the levers by the operator. One of
Mr. Wright's assistants marked the
time in large figures at intervals on
the roof of a shed, in order that Mr.
Wright might see how long he had
been in the air.

A gust of wind unusually strong
struck the aerial flyer during the forty-
second round, and it plunged sharply,
causing the crowd to exclaim in alarm.
Mr. Wright then brought the machine
lower, but on the fifty-third round he
had reached an altitude of 200 feet.

When Mr. Wright completed the
fifty-fourth round he had beaten his
record of Wednesday afternoon, which
in turn, had broken the world's re-
cord established in the morning flight
of Wednesday. The crowd gave a
lusty cheer, but Mr. Wright was too
busy manipulating the levers to wave
his cap.

Mr. Wright came down at the north-
ern end of the field at the end of the
fifty-eighth round, landing easily.

IN HIS HOME TOWN.

Speaker Cannon Opens His Campaign
for Re-Election.

Danville, Ill., Sept. 11.—Speaker Jo-
seph G. Cannon opened the campaign
for re-election to congress in his home
town. He went straight to the issue
in this district. Almost his entire ad-
dress of nearly two hours was devoted
to the labor question. He paid his
respects to Samuel Gompers, presi-
dent of the American Federation of
Labor, who spoke here on Labor day
and attacked Mr. Cannon, inviting
union workmen to vote against
him. Mr. Cannon plainly said he
would never vote in congress for the
boycott and some other things de-
manded by Gompers, including an anti-
injunction law that would make fish
of one and fowl of another. Mr. Can-
non was greeted by an audience of
5,000, who cheered for several min-
utes when he appeared on the stage.

FORAKER CALLS ON TAFT.

Discusses Politics With the Republi-
can Candidate.

Cincinnati, Sept. 11.—The call of
Senator Foraker at the offices of Judge
Taft in the Sinton hotel, the half-hour
conference which followed, and the
statements of cordiality by each party
to the conference, constituted the in-
teresting feature of the day at the
Taft headquarters.

"We had a very pleasant personal
talk," said Senator Foraker, on leav-
ing. "Yes, we talked about politics,
about nothing but politics you might
say."

"There is nothing to say except that
we repeated what we said at Toledo,"
was Judge Taft's comment after his
caller had gone. He added: "We dis-
cussed the general aspect of the cam-
paign. Senator Foraker said he want-
ed to do all he could to bring about
Republican success, and that when I
needed him I should call upon him.
The senator is to take an active part
in the campaign."

Mr. Taft expressed the desire that
reports of the interview should con-
tain no reference to a "peace pact," as
he laughingly remarked, there had
never been any interruption of peace
personally between himself and Sena-
tor Foraker.

The candidate had another busy day
with local callers, and important mat-
ters which he conducted through the
telephone, telegraph and mail. In the
afternoon he attended the funeral of
the late John G. Emery, a long time
resident of Cincinnati and an old
friend.

WILL OPPOSE MOVE.

Lunacy Commission Will Fight At-
tempt to Take Thaw to Pittsburgh.

Albany, N. Y., Sept. 11.—Any at-
tempt to take Harry K. Thaw from the
Dutchess county jail at Poughkeepsie
to Pittsburgh or any point outside the
state will be opposed by the state
commission in lunacy. Dr. Albert W.
Ferris, president of the commission,
returned here from a long European
trip and announced the position the
commissioner would take regarding the
order of Referee Blair of Pittsburgh,
that Thaw shall be taken to Pennsylv-
ania to be examined in the bank-
ruptcy proceedings instituted in his
behalf.

Milwaukee, Sept. 11.—Minor Heir,

the state fair mile track in 1:59½—
the fastest mile ever stepped on a
Wisconsin track. The performance
was made without a wind shield.

ARRIVES AT ALBANY.

American Battleship Fleet at West
Australian Port.

Albany, West Australia, Sept. 11.—
After a thirteen-hundred-mile voyage
from Melbourne, the American battle-
ships dropped anchor off King Point
at the entrance to Princess Royal har-
bor in King Georges sound. Great
crowds witnessed the coming of the
fleet, the sighting of which from
Breaksea Island was reported several
hours before.

Fine weather was experienced dur-
ing the trip from Melbourne, from
which port the fleet sailed on Satur-
day morning. The ships encountered
smooth seas and fair winds and the
time of the men was largely taken up
in routine drills and exercises.

CHOLERA IS SPREADING.

Many Cases of Plague Reported in St.
Petersburg.

St. Petersburg, Sept. 11.—The
Asiatic cholera is spreading in St.
Petersburg and the sudden jump in
the statistics is taken to mean that
the city authorities failed to take
proper precautions against an epidem-
ic when the first suspicious cases
were discovered a fortnight ago. The
latest bulletin issued reports 52 cases
and 18 deaths, but it is believed th-
treble that number exist within the
city limits.

The health commission admits that
there are 102 other cases of sickness
that are being watched. One hun-
dred doctors have been drafted into the
cholera squad at a salary of \$2.50 per
day. The city has chartered a special
tank steamer to distribute boiled wa-
ter to the barges, where a large per-
centage of the cases have been found.
A case of cholera is reported from
Petershof.

City Threatened With Flood.

Jacksonville, Fla., Sept. 11.—With a
rainfall of 11.39 inches in two days
and with a perfect deluge falling, the
city is threatened with a flood that
may exceed the one of 1903, when
merchants on West Bay street, the
principal thoroughfare, were driven
from their places of business. The
water stands three and a half feet
deep on West Bay street.

Politician Arrested.

Chicago, Sept. 11.—Joseph Martin,
for many years leading Democratic
politician on the North Side, friend
and adviser-in-chief to the late Gov-
ernor Altgeld, a former city collector
and a one-time gambling king, was ar-
rested by the Chicago avenue police
after an altercation with Peter Mc-
Leod, a contractor, in the course of
which McLeod was stabbed.

openly accused the speaker of telling
a falsehood when the speaker fixed
Mr. Bryan's wealth at \$1,000,000. Mr.
Bryan referred to what he said were

JOSEPH G. CANNON

the many exaggerated statements in
regard to his earthly possessions, but
declared that Mr. Cannon's statement
of Wednesday before the Springfield
convention was the first attempt of a
man of political standing or respon-
sibility to estimate these possessions.

In great detail, Mr. Bryan gave fig-
ures showing how his money had been
acquired from the day he entered con-
gress until the present time. He de-
nied emphatically that he was worth
\$1,000,000 and fixed the amount of his
"earthly possessions" at \$150,000 as
the extreme limit. He had come by it
honestly, he said, through saving a
portion of his congressional salary,
and from receipts derived from his
lectures and writings. He demanded
that Speaker Cannon be as frank as
himself and tell the public whether
he had made any money through lec-
turing and writing, and to what extent
his money-making had been hampered
by strict attention to public duties.

Not since the campaign began has
Mr. Bryan spoken with such vehe-
ment, and it is said to be the first
time that a presidential candidate ever
went out of his way to attack a can-
didate for congress.

The entire day was spent in Illinois
and Indiana. Altogether, Mr. Bryan
made seven speeches, the places at
which stops were made being Mat-
toon, Toledo, Newton and Olney, Ill.,
and Brown's, Poseyville and Evans-
ville, Ind. The heat was almost un-
bearable, but the Democratic candi-
date seemed not to be affected by it.
Wherever he went, he was met by
large and enthusiastic crowds.

"MICHAEL'S"

WRIGHT BREAKS WORLD'S RECORD

His Aeroplane Flies for More
Than an Hour.

Washington, Sept. 11.—Orville
Wright broke the world's record for
time and distance for a heavier-than-
air flying machine which he estab-
lished Wednesday. In a flight requir-
ing great skill on account of a tem-
pestuous wind, he circled around the drill
grounds at Fort Myer fifty-eight times
in 65 minutes and 52 seconds, exceed-
ing the time of Wednesday's record
flight by 3 minutes and 27 seconds.
The flight was witnessed by nearly
1,000 people.

The aeroplane rose from the ground
almost immediately after leaving the
single starting rail. It continued to
climb higher with each successive
round of the field, until it reached an
altitude of seventy-five feet. For the
first thirty rounds the machine flew
as smoothly as on its previous flights,
but from that time on it was seen to
pitch at the turns, as the breeze from
the west struck it. As the machine
moved from the northern end of the
field to the southern end, Mr. Wright
kept it several points in the wind.

Whenever the machine pitched, it
could be plainly seen from below that
it responded promptly to every move
of the levers by the operator. One of
Mr. Wright's assistants marked the
time in large figures at intervals on
the roof of a shed, in order that Mr.
Wright might see how long he had
been in the air.

A gust of wind unusually strong
struck the aerial flyer during the forty-
second round, and it plunged sharply,
causing the crowd to exclaim in alarm.
Mr. Wright then brought the machine
lower, but on the fifty-third round he
had reached an altitude of 200 feet.

When Mr. Wright completed the
fifty-fourth round he had beaten his
record of Wednesday afternoon, which
in turn, had broken the world's re-
cord established in the morning flight
of Wednesday. The crowd gave a
lusty cheer, but Mr. Wright was too
busy manipulating the levers to wave
his cap.

Mr. Wright came down at the north-
ern end of the field at the end of the
fifty-eighth round, landing easily.

IN HIS HOME TOWN.

Speaker Cannon Opens His Campaign
for Re-Election.

Danville, Ill., Sept. 11.—Speaker Jo-
seph G. Cannon opened the campaign
for re-election to congress in his home
town. He went straight to the issue
in this district. Almost his entire ad-
dress of nearly two hours was devoted
to the labor question. He paid his
respects to Samuel Gompers, presi-
dent of the American Federation of
Labor, who spoke here on Labor day
and attacked Mr. Cannon, inviting
union workmen to vote against
him. Mr. Cannon plainly said he
would never vote in congress for the
boycott and some other things de-
manded by Gompers, including an anti-
injunction law that would make fish
of one and fowl of another. Mr. Can-
non was greeted by an audience of
5,000, who cheered for several min-
utes when he appeared on the stage.

FORAKER CALLS ON TAFT.

Discusses Politics With the Republi-
can Candidate.

Cincinnati, Sept. 11.—The call of
Senator Foraker at the offices of Judge
Taft in the Sinton hotel, the half-hour
conference which followed, and the
statements of cordiality by each party
to the conference, constituted the in-
teresting feature of the day at the
Taft headquarters.

"We had a very pleasant personal
talk," said Senator Foraker, on leav-
ing. "Yes, we talked about politics,
about nothing but politics you might
say."

"There is nothing to say except that
we repeated what we said at Toledo,"
was Judge Taft's comment after his
caller had gone. He added: "We dis-
cussed the general aspect of the cam-
paign. Senator Foraker said he wanted
to do all he could to bring about
Republican success, and that when I
needed him I should call upon him.
The senator is to take an active part
in the campaign."

Mr. Taft expressed the desire that
reports of the interview should con-
tain no reference to a "peace pact," as
he laughingly remarked, there had
never been any interruption of peace
personally between himself and Sena-
tor Foraker.

The candidate had another busy day
with local callers, and important mat-
ters which he conducted through the
telephone, telegraph and mail. In the
afternoon he attended the funeral of
the late John G. Emery, a long time
resident of Cincinnati and an old
friend.

WILL OPPOSE MOVE.

Lunacy Commission Will Fight At-
tempt to Take Thaw to Pittsburgh.

Albany, N. Y., Sept. 11.—Any at-
tempt to take Harry K. Thaw from the
Dutchess county jail at Poughkeepsie
to Pittsburgh or any point outside the
state will be opposed by the state
commission in lunacy. Dr. Albert W.
Ferris, president of the commission,
returned here from a long European
trip and announced the position the
commissioner would take regarding the
order of Referee Blair of Pittsburgh,
that Thaw shall be taken to Pennsylv-
ania to be examined in the bank-
ruptcy proceedings instituted in his
behalf.

Minor Heir Coes a Fast Mile.

Milwaukee, Sept. 11.—Minor Heir,
driven by Charles Dean of Liberty-
ville, Ill., paced an exhibition mile on
the state fair mile track in 1:59½—
the fastest mile ever stepped on a
Wisconsin track. The performance
was made without a wind shield.

ARRIVES AT ALBANY.

American Battleship Fleet at West
Australian Port.

Albany, West Australia, Sept. 11.—
After a thirteen-hundred-mile voyage
from Melbourne, the American battle-
ships dropped anchor off King Point
at the entrance to Princess Royal har-
bor in King Georges sound. Great
crowds witnessed the coming of the
fleet, the sighting of which from
Breaksea island was reported several
hours before.

Fine weather was experienced dur-
ing the trip from Melbourne, from
which port the fleet sailed on Satur-
day morning. The ships encountered
smooth seas and fair winds and the
time of the men was largely taken up
in routine drills and exercises.

CHOLERA IS SPREADING.

Many Cases of Plague Reported in St.
Petersburg.

St. Petersburg, Sept. 11.—The
Asiatic cholera is spreading in St.
Petersburg and the sudden jump in
the statistics is taken to mean that
the city authorities failed to take
proper precautions against an epidem-
ic when the first suspicious cases
were discovered a fortnight ago. The
latest bulletin issued reports 52 cases
and 18 deaths, but it is believed th-
treble that number exist within the
city limits.

The health commission admits that
there are 102 other cases of sickness
that are being watched. One hundre-
doctors have been drafted into the
cholera squad at a salary of \$2.50 per
day. The city has chartered a special
tank steamer to distribute boiled wa-
ter to the barges, where a large per-
centage of the cases have been found.
A case of cholera is reported from
Peterhof.

Only Threatened With Flood.

Jacksonville, Fla., Sept. 11.—With a
rainfall of 11.39 inches in two days
and with a perfect deluge falling, the
city is threatened with a flood that
may exceed the one of 1903, when
merchants on West Bay street, the
principal thoroughfare, were driven
from their places of business. The
water stands three and a half feet
deep on West Bay street.

Politician Arrested.

Chicago, Sept. 11.—Joseph Martin,
for many years leading Democratic
politician on the North Side, friend
and adviser-in-chief to the late Gov-
ernor Altgeld, a former city collector
and a one-time gambling king, was ar-
rested by the Chicago avenue police
after an altercation with Peter Mc-
Leod, a contractor, in the course of
which McLeod was stabbed.

"Done!" retorted the gauger. "Here is your money, but be careful to tell me correctly."

"Och, she'll no' tell the gentleman a lee."

DAVIS CHARGED

WITH MURDER

Accused of Shooting Dr. Frederick Rustin of Omaha.

Omaha, Sept. 11.—County Attorney English has filed a complaint against Charles E. Davis, charging him with murder in the first degree in connection with the shooting of Dr. Frederick Rustin the morning of Sept. 2. The time of the hearing was not set.

An important development was brought to the attention of the county attorney when Dr. J. P. Lord, the physician called by Mrs. Rustin to attend her husband immediately following the shooting, told the police that on his way to the Rustin home the morning of the shooting he met a man answering the description of Davis two blocks from where Dr. Rustin was shot and coming from the direction of the dying physician's home. This feature was not brought out at the inquest, although Dr. Lord was one of the witnesses.

Chief Donahue declared it was the most significant bit of evidence thus far secured. Dr. Lord gave a very minute description of the man, which follows very closely in detail that of Charles E. Davis.

"The man came staggering along the street," said Dr. Lord, "he being on the sidewalk, and I was walking on the street. He passed not more than thirty feet from me. I noted him particularly because of the hour and the circumstances, although I did not speak to him."

Dr. Lord's story fits well into evidence presented to the coroner's jury and indicates that the man might have been in the vicinity of the Rustin residence ten to fifteen minutes before Dr. Lord met him, or about the time the shooting is said to have occurred.

"Och," said the old man, "she'll shust tak' hauf a croon."

"Done!" retorted the gauger. "Here is your money, but be careful to tell me correctly."

CIVIC BEAUTY
NOW APPRECIATED

By Citizens of Brainerd Judging
From the Many Efforts Made
at Improvement

CURBING OF NORTH SIDE DESIRED

Parks of Great Beauty Will be a
Reality in Another Year
Throughout the City

It is very encouraging to see the im-
provement in things that make for the
city's beauty so evident in Brainerd
this year. This movement was started
last year and is making headway
in a most remarkable way. Another
year the railroad parks will be places
of real beauty. It is hoped that the
public will soon have enough respect
for a beautiful spot to warrant the com-
mittee in charge of the work to remove
the wire fence which has been neces-
sary to keep the unappreciative "off
the grass."

The Brainerd Park and Improvement
association have secured a portion of
the plans from the landscape gardener
for the beautification of the City Park.
The portion secured is for the arrange-
ment of trees only. The association
has over \$2,000 to spend in this work,
and before the close of the next year
this plot of ground will really have the
appearance of a park indeed and create
a spot that every citizen will be proud
of.

The work of curbing is being pushed
in many sections of the city with splen-
did effect. East Oak street now boasts
of a goodly amount of curbing, South
Sixth has been greatly improved by
both paving and curbing. South Sixth
street is now a most beautiful driveway
since the residents have finished their
boulevards so nicely.

Some property owners and others
want to place curbing along their lots
on the Second Ward. There is a gen-
eral feeling, however, that the entire
ward should be curbed and several
prominent property owners of the ward
have expressed the wish that the prop-
erty owners of the ward should meet
and pass a resolution asking that the
council make a levy so that the work
shall be done next year. The only
thing in the way of such a movement
seems to be some one to make a start.
Should this be done the ward would in-
crease in value, as most residents are
property owners and would doubtless
look to the keeping up the boulevards.

That the city council is possessed of
this spirit of Civic Beauty is evidenced

Five Strong Reasons
Why painting in the fall is best

1. In the fall, the surface is thoroughly dry. During the spring a surface which needs repainting is sure to contain moisture and dampness or frost, and it cannot be successfully painted until it has thoroughly dried out.
2. When the wood is dry, it absorbs more of the paint; the paint penetrates deeper into the wood, therefore gets a firmer hold on it, giving the paint coating greater tenacity for holding qualities.
3. Paint cannot be as successfully applied in damp, cloudy or unsettled weather as in warm, sunny weather. In the fall the weather is more settled and uniform and is warmer, therefore it is an excellent time for painting.
4. A house needs its protective coat of paint more in the winter months than at any other time. A house in need of painting should never be allowed to go over the winter without this protection.
5. It is easier to keep the winter's moisture and dampness out by applying a coat of paint in the fall, when the surface is dry, than it is to get moisture or dampness out of the wood if you want to apply a coat of paint in the spring.

The correct list of the teaching force
of the city showed that there were 15
new teachers in the schools replacing

DROPPED DEAD
Celesten Sylvester Dies Suddenly of
Heart Trouble Last
Night

Celesten Sylvester, an old man about
70 years of age, dropped dead from
heart trouble last night about 11
o'clock outside of the door of the West
disorderly house on Water street.
The old man was employed at the
place in caring for the horse and cows
and running errands, and had been sent
up town to get a twenty dollar bill
changed. After he had been gone an
unusually long time, the inmates of
the place heard groans outside, and on
going out found the old man lying on
the ground holding the change for the
bill in his hand.
He was taken into the house and a
physician summoned, but he died be-
fore the doctor arrived. On examina-
tion the doctor announced the old man
had died of heart trouble.
Deceased had resided in the city for
several years living with his family on
2nd street, but after some family diffi-
culty some years ago, he left the fam-
ily and has worked about in various
places in the city. He was a member
of the G. A. R.

Death of Notable Character
Stephen Holmes, who passed away at
the home of his son, Wilmer, at the pop-
ular resort, Gilbert Lake, at the ad-
vanced age of 85 years, the funeral
services being held at the residence of
his daughter, Mrs. J. W. Welch, 904
4th Ave. N. E., and interred at Ever-
green cemetery yesterday afternoon,
had experienced a long and eventful
history.

He was born May 27, 1824, on the
farm of General Harrison, near Cincin-
nati. His father and Scott Harrison,
father of the late president, Ben Harrison,
were constable and justice of the
peace respectfully of the same town,
where young Stephen Holmes and Ben
Harrison enjoyed the pleasant hours of
boyhood and young manhood together,
Ben Harrison being somewhat the
younger.

The deceased was graduated from
the Cincinnati college, and gave most
of his active life to educational work
in some of the leading institutions of
Ohio, Iowa and Illinois, and followed
no other vocation during his entire ca-
reer. Those who knew him in his prime
say of him that he was a past master
at his work.

He was married to Hester Ann Toph,
October 31, 1848. To this union were
born seven sons six of whom survive,
five living in Iowa and Missouri and one
in this city. His first wife died Febru-
ary 28, 1867. Mr. Holmes was married
the second time to Sarah Tolbert on
May 2nd, 1872, and to them were born
one daughter, Mrs. J. W. Welch, 904
4th Ave. N. E. Mr. Holmes was be-
reaved of his second wife, May 5th,
1894, in this city.

The deceased came to this city in 1838,
residing most of his time at Gilbert
Lake where he was well known to the
many who visit that place. Mr. Holmes
has one brother living in Washington,
D. C. and two others with a sister in
Ft. Madison, Iowa.

The funeral services were conducted
by Rev. Charles Fox Davis of the Meth-
odist Episcopal church, Mr. Holmes
having been a life long member of that
church. The services were largely at-
tended.

A Text For a Sermon.
A member of the faculty of the Uni-

quent occasion to reprove his eight-
year-old daughter for playing with
matches.

Recently the youngster in the exer-
cise of her favorite diversion succeed-
ed in burning her hands.
Immediately she was summoned to
judgment. "Cara," said the father
sternly, "I should punish you for your
disobedience. There is, however, no
need to in this case, for God has al-
ready punished you."
"Yes, sir," meekly responded the child;
"but, papa, he let me play with the
matches an awfully long time first."—

Duty of Voters

When you go to the polls next Tues-
day do not overlook one of the most
important things that you will have to
consider. We refer to the matter of
selecting candidates for the nomination
for representative. To those who have
followed current events for the past
few years this will be unnecessary ad-
vice as they know the importance of
the unfinished legislation to come up
before the next legislature. There are
many items of great importance to be
considered and disposed of and it is
absolutely necessary that the voters
select men to fill the two places on the
ticket upon whom they may depend.

Of all the candidates up for nomination
we know of none who are closer to the
people than Charles W. Bouck. Mr.
Bouck is both a farmer and business
man and as he has been very success-
ful in both of those followings it is but
natural that he would be a valuable
man to send to the Capitol. He is a
hard worker and should be one of the
men to be selected, the voter may rest
assured that they will have in him a
man who will devote all of his time to
furthering the best interest of the 48th
legislative district. Remember that a

vote for Charles W. Bouck is a vote
for the best interests of Morrison and
Crow Wing counties.—Royalton Ban-
ner.

CIVIC BEAUTY
NOW APPRECIATED
By Citizens of Brainerd Judging
From the Many Efforts Made
at Improvement
CURBING OF NORTH SIDE DESIRED
Parks of Great Beauty Will be a
Reality in Another Year
Throughout the City

It is very encouraging to see the improvement in things that make for the city's beauty so evident in Brainerd this year. This movement was started last year and is making headway in a most remarkable way. Another year the railroad parks will be places of real beauty. It is hoped that the public will soon have enough respect for a beautiful spot to warrant the committee in charge of the work to remove the wire fence which has been necessary to keep the unappreciative "off the grass."

The Brainerd Park and Improvement Association have secured a portion of the plans from the landscape gardener or the beautification of the City Park. The portion secured is for the arrangement of trees only. The association has over \$2,000 to spend in this work, and before the close of the next year this plot of ground will really have the appearance of a park indeed and create a spot that every citizen will be proud of.

The work of curbing is being pushed in many sections of the city with splendid effect. East Oak street now boasts of a goodly amount of curbing, South Eighth has been greatly improved by both paving and curbing. South Sixth street is now a most beautiful driveway since the residents have finished their boulevards so nicely.

Some property owners and others want to place curbing along their lots in the Second Ward. There is a general feeling, however, that the entire ward should be curbed and several prominent property owners of the ward have expressed the wish that the property owners of the ward should meet and pass a resolution asking that the council make a levy so that the work shall be done next year. The only thing in the way of such a movement seems to be some one to make a start. Should this be done the ward would increase in value, as most residents are property owners and would doubtless look to the keeping up the boulevards.

That the city council is possessed of this spirit of Civic Beauty is evidenced

Five Strong Reasons
Why painting in the fall is best

1. In the fall, the surface is thoroughly dry. During the spring a surface which needs repainting is sure to contain moisture and dampness or frost, and it cannot be successfully painted until it has thoroughly dried out.
2. When the wood is dry, it absorbs more of the paint; the paint penetrates deeper into the wood, therefore gets a firmer hold on it, giving the paint coating greater tenacity for holding qualities.
3. Paint cannot be as successfully applied in damp, cloudy or unsettled weather as in warm, sunny weather. In the fall the weather is more settled and uniform and is warmer, therefore it is an excellent time for painting.
4. A house needs its protective coat of paint more in the winter months than at any other time. A house in need of painting should never be allowed to go over the winter without this protection.
5. It is easier to keep the winter's moisture and dampness out by applying a coat of paint in the fall, when the surface is dry, than it is to get moisture or dampness out of the wood if you want to apply a coat of paint in the spring.

School Board Proceedings
The Board of Education met in adjourned session Thursday evening at the usual hour and place, eight members being present.
The text book committee reported that they had audited and taken inventory of the book room and found things in a very satisfactory condition.
The building committee submitted a report certifying that the school buildings of the city were now supplied with the necessary fire escapes.
The correct list of the teaching force of the city showed that there were 15 new teachers in the schools replacing those who had resigned. Prof. Hartley stated that the schools had started in a better condition for the first few days than for several years.

Doctors Meet
The meeting of the Interurban Academy of Medicine, which was held at the St. Louis last evening, was attended by about 60 physicians. The attendance was somewhat larger than usual at the regular meetings, for the members of the St. Louis County Medical society were invited.
The paper of the evening was read by Dr. Walter Courtney of Brainerd. His topic was "Conservatism in Traumatic Surgery." The paper was listened to with attention, and elicited considerable discussion. The physicians had dinner at the hotel before the meeting.—Duluth News Tribune.

DROPPED DEAD
Celesten Sylvester Dies Suddenly of
Heart Trouble Last
Night

Celesten Sylvester, an old man about 70 years of age, dropped dead from heart trouble last night about 11 o'clock outside of the door of the West disorderly house on Water street.
The old man was employed at the place in caring for the horse and cows and running errands, and had been sent up town to get a twenty dollar bill changed. After he had been gone an unusually long time, the inmates of the place heard groans outside, and on going out found the old man lying on the ground holding the change for the bill in his hand.
He was taken into the house and a physician summoned, but he died before the doctor arrived. On examination the doctor announced the old man had died of heart trouble.
Deceased had resided in the city for several years living with his family on 2nd street, but after some family difficulty some years ago, he left the family and has worked about in various places in the city. He was a member of the G. A. R.

Death of Notable Character
Stephen Holmes, who passed away at the home of his son, Wilmer, at the popular resort, Gilbert Lake, at the advanced age of 85 years, the funeral services being held at the residence of his daughter, Mrs. J. W. Welch, 904 4th Ave. N. E., and interred at Evergreen cemetery yesterday afternoon, had experienced a long and eventful history.

He was born May 27, 1824, on the farm of General Harrison, near Cincinnati. His father and Scott Harrison, father of the late president, Ben Harrison, were constable and justice of the peace respectfully of the same town, where young Stephen Holmes and Ben Harrison enjoyed the pleasant hours of boyhood and young manhood together, Ben Harrison being somewhat the younger.
The deceased was graduated from the Cincinnati college, and gave most of his active life to educational work in some of the leading institutions of Ohio, Iowa and Illinois, and followed no other vocation during his entire career. Those who knew him in his prime say of him that he was a past master at his work.

He was married to Hester Ann Toph, October 31, 1848. To this union were born seven sons six of whom survive, five living in Iowa and Missouri and one in this city. His first wife died February 28, 1867. Mr. Holmes was married the second time to Sarah Tolbert on May 2nd, 1872, and to them were born one daughter, Mrs. J. W. Welch, 904 4th Ave. N. E. Mr. Holmes was bereaved of his second wife, May 5th, 1894, in this city.
The deceased came to this city in 1838, residing most of his time at Gilbert Lake where he was well known to the many who visit that place. Mr. Holmes has one brother living in Washington, D. C. and two others with a sister in Ft. Madison, Iowa.

The funeral services were conducted by Rev. Charles Fox Davis of the Methodist Episcopal church, Mr. Holmes having been a life long member of that church. The services were largely attended.

A Text For a Sermon.
A member of the faculty of the University of Pennsylvania has had the recent occasion to reprove his eight-year-old daughter for playing with matches.

Recently the youngster in the exercise of her favorite diversion succeeded in burning her hands.
Immediately she was summoned to judgment. "Cara," said the father sternly, "I should punish you for your disobedience. There is, however, no need to in this case, for God has already punished you."
"Yes, sis," meekly responded the child; "but, papa, he let me play with the matches an awfully long time first."—Harper's Weekly.

Duty of Voters
When you go to the polls next Tuesday do not overlook one of the most important things that you will have to consider. We refer to the matter of selecting candidates for the nomination for representative. To those who have followed current events for the past few years this will be unnecessary advice as they know the importance of the unfinished legislation to come up before the next legislature. There are many items of great importance to be considered and disposed of and it is absolutely necessary that the voters select men to fill the two places on the ticket upon whom they may depend.

Of all the candidates up for nomination we know of none who are closer to the people than Charles W. Bouck. Mr. Bouck is both a farmer and business man and as he has been very successful in both of those followings it is but natural that he would be a valuable man to send to the Capitol. He is a hard worker and should be one of the men to be selected, the voter may rest assured that they will have in him a man who will devote all of his time to furthering the best interest of the 48th legislative district. Remember that a

vote for Charles W. Bouck is a vote for the best interests of Morrison and Crow Wing counties.—Royalton Banner.

Vote for Alfred L. Thwing

For Judge of the Fifteenth District.

A letter of which the following is a copy was sent since the date thereof, by Mr. Holland, to some of his friends in the district.

Brainerd, Minn., Sept 5th, 1908.

DEAR SIR:

One district court judge in the Fifteenth judicial district of the State of Minnesota will be elected at the November 1908 election. The political parties will make nominations prior thereto. The counties of Aitkin, Beltrami, Cass, Clearwater, Crow Wing, Hubbard, Itasca and Koochiching comprise the 15th judicial district.

If either of us is in court voluntarily, or otherwise, we expect the judge is honest, unbiased and will see that we get a square deal.

Alfred L. Thwing, of Grand Rapids, Itasca county, Minnesota, is a candidate for the Republican nomination as one of the judges of said Fifteenth judicial district. Mr. Thwing is a graduate of the law department of the State University at Minneapolis. He is a young man, a good lawyer, honest and well qualified to act as judge.

You remember I was judge of this district twelve years, beginning in January, 1889. I can assure you that Mr. Thwing is a good man for the position. If you vote for him and help him get the republican nomination for judge of this Fifteenth judicial district, you will never regret it, but be prouder of it as you become better acquainted with him.

If Mr. Thwing receives the republican nomination for judge, he or the independent candidate will be elected.

Whoever draws the lucky number, the rights of the people will be protected.

Very respectfully yours,

E. J. Holland

HEPBURN ACT HELD INVALID

Commodities Clause Declared to Be Unconstitutional.

DISMISSES GOVERNMENT SUIT

United States Circuit Court for the Eastern District of Pennsylvania Decides Case in Favor of the Anthracite Coal Carrying Railroads—Case May Be Appealed to Supreme Court.

Philadelphia, Sept. 11.—Declaring it to be harsh and unreasonable and an invasion of the rights of the states, and therefore repugnant to the Constitution, the United States circuit court for the Eastern district of Pennsylvania dismissed the suits of the federal government to enforce the commodities clause of the Hepburn railroad act against the anthracite coal carrying railroads of this state. Judges George Gray and George M. Dallas filed opinions dismissing the suits and Judge Joseph Buffington dissented, but did not file an opinion.

The commodities clause prohibits railroad companies from transporting in interstate commerce any article or commodity manufactured, mined or produced by them or under their authority. The case was argued in June, United States Attorney General Bonaparte delivering the principal argument for the government. The effect of the commodities clause, if constitutional, would be to confine the mining of anthracite coal by the railroads for use in Pennsylvania only, or compel the railroads to sell all the mining properties they are interested in, either directly or indirectly.

The decision of the court did not come as a great surprise. It is almost certain that the case will be appealed directly to the United States supreme court.

Principal Opinion by Judge Gray.

The principal opinion was written by Judge Gray, who as president of the anthracite strike commission, has an intimate knowledge of the mining of hard coal and of the many ramifications in the ownership of the coal mines. Judge Dallas said in his opinion that it cannot be denied that the commodities clause was enacted "not actually for the regulation of interstate commerce but really to coerce the conformity of intrastate business with a 'policy' approved by congress."

Judge Gray in his opinion discussed at length the limitations put on congress by the Constitution and concluded as follows: "From every point of view which we have been able to approach the question, the unreasonableness and consequent invalidity of this so-called 'commodities clause' is apparent. It invades the rights of the state, by striking down the liberty hitherto innocently enjoyed by its citizens under the laws and usages of the commonwealth, to engage in interstate commerce to the fullest extent, as to all harmless articles, whether owned or not owned by the carrier and deprives of their property these defendants, contrary to the letter and spirit of the Fifth amendment to the Constitution. If the enactment in question be valid"

Eye Strain Headache

Toledo, Ohio, lady tells how headaches disappeared with the use of Dr. A. W. Chase's Nerve Pills.

Women who use their eyes much for reading or fine needlework are sure to find eye-strain and nervous, sick headaches among the first symptoms when the nervous system gets run down.

As a positive cure for headaches, not mere relief but cure, Dr. A. W. Chase's Nerve Pills stand without a rival because they get at the cause of the trouble and build up the nervous system to health and strength.

Mrs. K. Kramer, 31 Summit St., Toledo, Ohio, states: "My trouble was good, hard, nervous, sick headaches and neuralgia of the eyes, all due to a run-down system. I heard of Dr. A. W. Chase's Nerve Pills and obtained splendid results from their use. The headaches and neuralgia disappeared when my system was built up; the nerves are steady and my whole system wonderfully benefited."

ranked by the commerce clause of the Constitution it is hard to see what bounds may be set to the exercise of that power. Cough Caution

Never, positively never poison your lungs. If you cough—even from a simple cold—you should always heal, soothe, and ease the irritated bronchial tubes. Don't blindly suppress it with a stupefying opium. It's strange how some things finally come about. For twenty years Dr. Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now—a little late though—Congress says "Put it on the label if poisons are in your Cough Mixture." Good! Very good! Hereafter for this very reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poison marks the label. Labels—and none in the medicine, also it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance then, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and note the difference. No poison marks there! You can always be on the safe side by demanding

Vote for Alfred L. Thwing

For Judge of the Fifteenth District.

A letter of which the following is a copy was sent since the date thereof, by Mr. Holland, to some of his friends in the district.

Brainerd, Minn., Sept 5th, 1908.

DEAR SIR:

One district court judge in the Fifteenth judicial district of the State of Minnesota will be elected at the November 1908 election. The political parties will make nominations prior thereto. The counties of Aitkin, Beltrami, Cass, Clearwater, Crow Wing, Hubbard, Itasca and Koochiching comprise the 15th judicial district.

If either of us is in court voluntarily, or otherwise, we expect the judge is honest, unbiased and will see that we get a square deal.

Alfred L. Thwing, of Grand Rapids, Itasca county, Minnesota, is a candidate for the Republican nomination as one of the judges of said Fifteenth judicial district. Mr. Thwing is a graduate of the law department of the State University at Minneapolis. He is a young man, a good lawyer, honest and well qualified to act as judge.

You remember I was judge of this district twelve years, beginning in January, 1889. I can assure you that Mr. Thwing is a good man for the position. If you vote for him and help him get the republican nomination for judge of this Fifteenth judicial district, you will never regret it, but be prouder of it as you become better acquainted with him.

If Mr. Thwing receives the republican nomination for judge, he or the independent candidate will be elected.

Whoever draws the lucky number, the rights of the people will be protected.

Very respectfully yours,

E. W. Holland

If it develops that I shall be given a second term unanimously it will please me greatly, and leave me free to devote my whole energy to the regular work and the special duties developing upon this office incident to the election.

As ever,

HEPBURN ACT HELD INVALID

Commodities Clause Declared to Be Unconstitutional.

DISMISSES GOVERNMENT SUIT

United States Circuit Court for the Eastern District of Pennsylvania

Decides Case in Favor of the Anthracite Coal Carrying Railroads—Case May Be Appealed to Supreme Court.

Philadelphia, Sept. 11.—Declaring it to be harsh and unreasonable and an invasion of the rights of the states, and therefore repugnant to the Constitution, the United States circuit court for the Eastern district of Pennsylvania dismissed the suits of the federal government to enforce the commodities clause of the Hepburn railroad act against the anthracite coal carrying railroads of this state. Judges George Gray and George M. Dallas filed opinions dismissing the suits and Judge Joseph Buffington dissented, but did not file an opinion.

The commodities clause prohibits railroad companies from transporting in interstate commerce any article or commodity manufactured, mined or produced by them or under their authority. The case was argued in June, United States Attorney General Bonaparte delivering the principal argument for the government. The effect of the commodities clause, if constitutional, would be to confine the mining of anthracite coal by the railroads for use in Pennsylvania only, or compel the railroads to sell all the mining properties they are interested in, either directly or indirectly.

The decision of the court did not come as a great surprise. It is almost certain that the case will be appealed directly to the United States supreme court.

Principal Opinion by Judge Gray.

The principal opinion was written by Judge Gray, who as president of the anthracite strike commission, has an intimate knowledge of the mining of hard coal and of the many ramifications in the ownership of the coal mines. Judge Dallas said in his opinion that it cannot be denied that the commodities clause was enacted "not actually for the regulation of interstate commerce but really to coerce the conformity of intrastate business with a 'policy' approved by congress."

Judge Gray in his opinion discussed at length the limitations put on congress by the Constitution and concluded as follows:

"From every point of view which we have been able to approach the question, the unreasonableness and consequent invalidity of this so-called 'commodities clause' is apparent. It invades the rights of the state, by striking down the liberty hitherto innocently enjoyed by its citizens under the laws and usages of the commonwealth, to engage in interstate commerce to the fullest extent, as to all harmless articles, whether owned or not owned by the carrier and deprives of their property these defendants, contrary to the letter and spirit of the Fifth amendment to the Constitution. If the enactment in question be war-

Eye Strain Headache

Toledo, Ohio, lady tells how headaches disappeared with the use of Dr. A. W. Chase's Nerve Pills.

Women who use their eyes much for reading or fine needlework are sure to find eye-strain and nervous, sick headaches among the first symptoms when the nervous system gets run down.

As a positive cure for headaches, not mere relief but cure, Dr. A. W. Chase's Nerve Pills stand without a rival because they get at the cause of the trouble and build up the nervous system to health and strength.

Mrs. K. Kramer, 31 Summit St., Toledo, Ohio, states: "My trouble was good, hard, nervous, sick headaches and neuralgia of the eyes, all due to a run-down system. I heard of Dr. A. W. Chase's Nerve Pills and obtained splendid results from their use. The headaches and neuralgia disappeared when my system was built up; the nerves are steady and my whole system wonderfully benefited."

anted by the commerce clause of the Constitution it is hard to see what bounds may be set to the exercise of that power. It will indeed be an open door, through which the forces of a centralization hitherto unknown may enter at will, to the overthrow of that just balance between federal and state power, for which the makers of the Constitution so wisely provided, as an essential to the preservation of our dual form of government."

Cough Caution

Never, positively never poison your lungs. If you cough—even from a simple cold only—you should always heal, soothe, and ease the irritated bronchial tubes. Don't blindly suppress it with a stupefying poison. It's strange how some things finally come about. For twenty years Dr. Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons.
